A Longitudinal Analysis of Community College Pathways to Computer Science Bachelor's Degrees

2016

Does college “level the playing field” or produce more stratification?

Potential of Transfer to increase Social Mobility:

Community Colleges accounted for 37% of all new students starting college in the fall of 2014

Approximately 80% intend to transfer and earn a bachelor's degree

The vast majority of students who enroll in a community college plan to one day earn a bachelor's degree.

Most never make it.

Average Transfer-Out Bachelor's Completion Rates by Institutional Characteristics

While outcomes at community colleges vary, what we might imagine would predict variation **doesn't**.

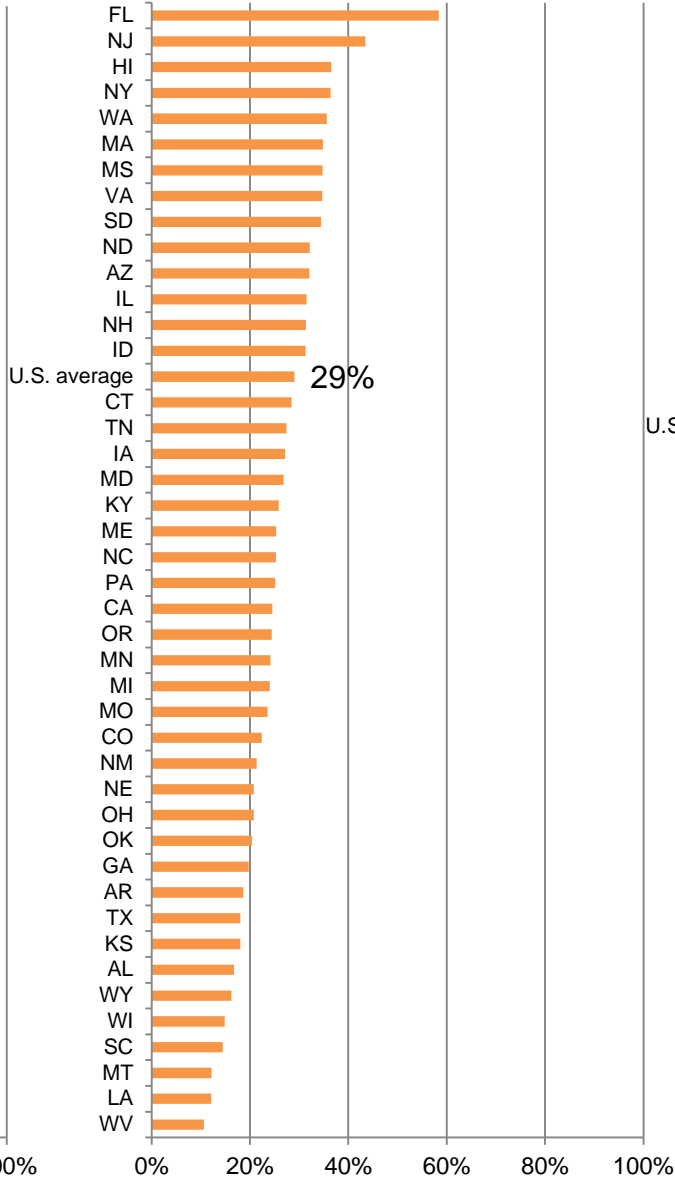

On the other hand, the characteristics of 4-year schools matter when it comes to how many transfer students get a bachelor's.

Our conclusion: Transfer outcomes depend on what community colleges and 4-year colleges do to teach and support their students.

Understudied Barriers to Transfer Success

- 1) Lack of early momentum
- 2) Students make progress, don't transfer
- 3) Transfer paths unclear
- 4) Transfer credit loss

Key themes:

- Students are confused about transfer pathways in CS
- Students struggle to progress through complex chain of prerequisites in preparation for transfer into CS major
- Students have limited knowledge of CS profession

Barriers to students' development of interest and progression into CS:

- Necessary prerequisite classes are over-enrolled
- Math requirements are “daunting”
- Students lack confidence to succeed in needed courses
- Competing responsibilities interfere

Understudied Barrier #4

Transfer credit loss

Understudied Barrier #4: Transfer Credit Loss

Just **58%** of students successfully transferred 90% of their credits.

And **15%** can't transfer any credits at all.

Students who can transfer 90% of their credits were **2.5x** more likely to get their bachelor's degree, compared to those who transfer half or less.

Credit Transfer Efficiency

- Important to understand: both a barrier to completion and source of extra cost
- Measures of credit transfer efficiency:
 - **Transferability:** Credits are accepted at receiving institution
 - **Applicability:** Credits are counted toward major/degree at receiving institution
 - **Excess Credit:** Students attempted/earned more credits than the total required for their degree
- APPAM 2016: Exploratory study of excess credits among BA completers who started a two- and four-year institutions in two states:
 - Created a rich set of variables to capture the curricular pathways students take in pursuing a bachelor's degree
 - Used data mining techniques to identify variables associated with efficient or inefficient bachelor's degree pathways
 - Dependent Variable: Excess Credits among BA completers

Simplified Partition Tree:

State B, 2-year Entrants, Excess Credits Attempted

Understudied Barriers to Transfer Success

- 1) Lack of early momentum
- 2) Students make progress, don't transfer
- 3) Transfer paths unclear
- 4) Transfer credit loss

What can we do to address these barriers?

STRATEGY 1: Prioritize Transfer

- ✓ Communicate transfer as a key component of the institution's mission
- ✓ Share data to increase understanding of the need to improve transfer student outcomes – and the benefits of doing so
- ✓ Dedicate significant resources to support transfer students

STRATEGY 2: Create Clear Programmatic Pathways with Aligned High-Quality Instruction

- ✓ Work collaboratively with colleagues from partner institutions to create major-specific program maps
- ✓ Provide rigorous instruction and other high-quality academic experiences to prepare students for four-year programs
- ✓ Establish regular, reliable processes for updating and improving program maps
- ✓ Design unconventional pathways, as necessary

Overview of program Business Transfer DTA

GENERAL INFORMATION

This degree satisfies general undergraduate requirements for a major in economics through a university in the sciences or business. This degree meets statewide guidelines for transfer to the following Washington State universities subject to exceptions and qualifications outlined in this guide: Central Washington University, University of Washington, Washington State University, Western Washington University, Gonzaga University, Heritage University, Pacific Lutheran University, Saint Martin's University, Seattle Pacific University, Seattle University, Walla Walla University, and Whitworth University.

Notes:

- To earn a certificate or degree, the courses must be completed with a cumulative GPA of 2.0 (C) or better.
- Gonzaga requires a course equivalent to its BMIS 235, Management Information Systems.
- PLU requires a course equivalent to its Computer Applications CSCE 120 or MOS certification; CL 101 may suffice to fulfill this requirement.
- SPU requires a course equivalent to its BUS 1700 or MOS certification (MOS 77-420); BT 242 may suffice to fulfill this requirement.
- WWU requires a course equivalent to its MIS 220 Introduction to Computer Systems; CL 101 may suffice to fulfill this requirement. The WWU Manufacturing and Supply Chain Management program requires additional coursework, some of which may also be taken as elective credit at EvCC. Management program web site is www.wvu.edu/node/731/.

STRATEGY 3: Provide Tailored Transfer Student Advising

STRATEGY 3: Provide Tailored Transfer Student Advising

**COMMUNITY COLLEGE
ADVISING PRACTICES**

- ✓ Clearly articulate students' transfer options and help them determine, as early as possible, their field of interest, major, and preferred transfer destination
- ✓ Continuously monitor student progress, provide frequent feedback and intervene quickly when students are off-track
- ✓ Help students access the financial resources necessary to achieve their goals

WEBSITE EXERCISE

Imagine you are a student about to register for classes at your community college.

You want to study marketing and transfer to a local four-year university. Go to **YOUR COLLEGE'S** website, and find the information that you need to select your courses and transfer successfully. Try to figure out what courses you will need to in order to transfer and enter the marketing program at the four-year institution.

Think about the following questions **AS THE STUDENT**:

Getting Off on the Right Start: What marketing programs are available at nearby universities? What career options are available to you after you transfer and complete the degree? What do salaries look like for these career options? Is this information available to you on either website?

Planning for Program Requirements: What are the requirements for admission to the university's marketing programs? What classes will the student need to take at **YOUR COLLEGE** if you want to transfer into a marketing program at the university? How easy or difficult was it to find this information? How many clicks did it take?

Locating In-Person Help: Who would you need to go to at **YOUR COLLEGE** to get information on transfer in marketing? Where would you go to on your campus to find that person? How easy or difficult was it to find this information on your website?

STRATEGY 3: Provide Tailored Transfer Student Advising

**FOUR-YEAR COLLEGE
ADVISING PRACTICES**

- ✓ Commit dedicated personnel, structures, and resources for transfer students
- ✓ Assign advisors and clearly communicate essential information to prospective transfer students
- ✓ Strongly encourage transfer students to choose a major prior to transfer
- ✓ Replicate elements of the first-year experience for transfer students
- ✓ Exercise fairness in financial aid allocation

“I APPLIED TO [A FOUR-YEAR UNIVERSITY] AS A FRESHMAN AND GOT SCHOLARSHIPS. THEN I APPLIED [TO THE SAME UNIVERSITY] AS A TRANSFER STUDENT AND DIDN'T GET [SCHOLARSHIPS]. WHERE DID THEY GO?”

...and looking at success by partner

Build Strong Transfer Partnerships

- ✓ Build trusting relationships with partners and communicate frequently at all levels.
- ✓ Share data on transfer student experiences and outcomes.
- ✓ Jointly invest in shared support services and strategic initiatives to benefit transfer students.
- ✓ Collaborate on improving instruction and support services for transfer students.
- ✓ Designate “transfer champions” to serve as liaisons to transfer partners.

***THE TRANSFER PLAYBOOK:
TOOL FOR ASSESSING PROGRESS TOWARD ADOPTION OF
ESSENTIAL TRANSFER PRACTICES FOR FOUR-YEAR COLLEGES***

Institution Name: _____

Overview: This tool is designed to help your institution assess the alignment of your community college transfer student practices with those described in *The Transfer Playbook: Essential Practices for Two- and Four-Year Colleges*, published in May 2016 by the Aspen Institute's College Excellence Program and the Community College Research Center at Columbia University's Teachers College. These practices were identified based on research on two- and four-year institutional partnerships that have achieved exceptional transfer and baccalaureate completion rates for students who start at community colleges (controlling for student and institutional characteristics).

How to use this tool: The assessment is organized around four categories of essential practices: 1) prioritize transfer, 2) create clear, rigorous program pathways, 3) provide tailored transfer advising, and 4) build effective transfer partnerships. Within the four categories, please use the following scale to rate how systematically each sub-practice is implemented at your college. By "systemic," we mean that the practice is implemented routinely and at scale, and that it is part of the regular operation and culture of the college. The tool offers questions to consider as you conduct the assessment, and space to identify possible next steps.

Scale of Adoption
(1) Minimal
(2) Beginning
(3) Building
(4) Systemic

Scale of Adoption	Definition
(1) Minimal	The college does not engage in this practice in a significant way (i.e., routinely and/or at scale)
(2) Beginning	The college is beginning to engage in this practice, but has not moved toward systematizing it
(3) Building	The college engages in this practice and is moving toward systemic implementation
(4) Systemic	The college engages in this practice systemically

We recommend that a core team be assembled to complete the assessment to ensure that those with relevant knowledge of transfer student practices and policies are included. Possible members of the team might include: deans from at least two colleges or academic divisions, department chairs from at least two academic divisions, a financial aid staff member, and advisors who work with transfer students. Once a diverse, inclusive core team has completed the assessment, members should then engage others at the institution in conversation about the results, beginning with the president and her/his cabinet and followed by a broader group of faculty and staff. Ideally these discussions should help refine the assessment, build shared understanding of the ways your institution does and does not support transfer students, and motivate college leaders to continue to engage the wider college community in planning and implementing improvements.

ESSENTIAL TRANSFER PRACTICES

	ESSENTIAL TRANSFER PRACTICE #2: CREATE CLEAR, RIGOROUS PROGRAM PATHWAYS	Stage of Adoption at Our Institution	Questions to Consider	Next Steps: Easy Wins and Opportunities for Long-Term Improvement
a. The institution and other senior colleges that improve college transfer outcomes is institution's	a. Programs of study for community college transfer students are clearly mapped.	<input type="checkbox"/> Minimal <input type="checkbox"/> Beginning <input type="checkbox"/> Building <input type="checkbox"/> Systemic	<ul style="list-style-type: none"> Do the transfer maps clearly indicate: <ul style="list-style-type: none"> recommended lower-division courses, course sequences, and progress milestones by academic term for specific majors? clear information on special requirements and procedures for specific majors or colleges? notes to clarify particularly confusing articulation with major feeder colleges? information on career opportunities in each field? Are the maps easily accessible on the institution's website? Is there a mechanism for keeping transfer program requirements and maps up-to-date? 	
b. Transfer student success is reflected as institution's (e.g., strategic self-study, self-planning documents, etc.).	b.
